<b>Office Action Summary</b>	<b>Application No.</b> 10/625,390	<b>Applicant(s)</b> STOY, VLADIMIR A.	
	<b>Examiner</b> Alvin J. Stewart	<b>Art Unit</b> 3738	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.

***Reissue Applications***

The patent sought to be reissued by this application 10/625,390 is involved in litigation. Any documents and/or materials which would be material to the patentability of this reissue application are required to be made of record in reply to this action.

Due to the related litigation status of this application, EXTENSIONS OF TIME UNDER THE PROVISIONS OF 37 CFR 1.136(a) WILL NOT BE PERMITTED DURING THE PROSECUTION OF THIS APPLICATION.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 39, 40, 43, 45 and 46 are rejected under 35 U.S.C. 102(b) as being anticipated by Bao et al US Patent 5,534,028.

Bao et al discloses a spinal disc implant comprising a swellable plastic, whereby upon at least partial hydration of the implant member, the implant member undergoes anisotropic expansion and has a capacity to swell to a length along the longitudinal axis which is greater than the space between the adjacent vertebrae (see col. 5, lines 17-45).

Regarding claim 43, see col. 7, lines 1-6.

Claims 39, 40, 43-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Ray et al US Patent 5,674,295.

Ray et al discloses a spinal disc implant comprising a swellable plastic, whereby upon at least partial hydration of the implant member, the implant member undergoes

anisotropic expansion and has a capacity to swell to a length along the longitudinal axis which is greater than the space between the adjacent vertebrae (see Fig. 9; col. 4, lines 27-44).

Regarding claim 44, see col. 4, lines 45-54.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 47 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bao et al US Patent 5,534,028.

Bao et al discloses the invention substantially as claimed. However, Bao et al does not disclose a xerogel implant.

At the time the invention was made, it would have been an obvious matter of design choice to a person of ordinary skill in the art to modify the hydrogel material of the Bao et al reference with xerogel material because Applicant has not disclosed that by having a xerogel material provides an advantage, is used for a particular purpose, or solves a stated problem. One of ordinary skill in the art, furthermore, would have expected Applicant's invention to perform equally well with hydrogel material of the Bao et al reference because it would perform equally as well.

Therefore, it would have been an obvious matter of design choice to modify Bao et al reference to obtain the invention as specified in claim 39.

Art Unit: 3738

***Allowable Subject Matter***

Claims 1-37 are allowed.

Claims 41, 42, 48 and 49 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin J. Stewart whose telephone number is 571-272-4760. The examiner can normally be reached on Monday-Friday 7:00AM-5:30PM(1 Friday B-week off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
